**DETAILED ACTION**

***Response to Amendment***

1. The amendment, filed 05 October 2004, has been entered, and overcomes the previous objections/rejections.
2. A thorough review of the application has been made. A new grounds of rejection for claims 20-22 has been made. Please refer to the rejection below. This action is made non-final. While claims 20-22 were previously rejected under 35 USC 112, 2<sup>nd</sup> para., claim 20 was not discussed as failing to comply with 35 USC 112, 2<sup>nd</sup> para.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 20-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
5. Claim 20 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: the structure required to deposit the film and to blow the fine particles at an oblique incidence angle toward the deposited film.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3723

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claim 20, as broadly claimed, is rejected under 35 U.S.C. 102(b) as being anticipated by Morioka et al, 4,993,200. Note especially figure 2 and its description. Note that while '200 does not disclose the same workpiece as applicant, the apparatus of '200 is capable of blowing fine particles at an oblique angle toward the surface of a deposited film (such as dirt, oil or paint).

***Allowable Subject Matter***

8. Claims 14-19 are allowed.

9. Claims 21 and 22 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

10. Applicant's arguments with respect to claims 20-22 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to M Rachuba whose telephone number is (571) 272-4493. The examiner can normally be reached on Monday-Thursday from 8:30 AM to 3:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail, can be reached on (571) 272-4485. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
